WESTON NURSERIES

1932
WESTON, MASSACHUSETTS

How to Reach Our Nurseries

THE WESTON NURSERIES are located in the southern part of the Town of Weston, 13 miles from Boston, on Route 23. Coming out from Boston follow Commonwealth Avenue, Route 23 begins about one mile after crossing Charles River Bridge at Norumbega Park. Following this route for about 2 miles and just before crossing Wellesley Street our new office, greenhouse and sales grounds are located on your right.

Our main nursery of 50 acres is located on Winter Street, which is the first public road on your left after crossing Wellesley Street, and it turns off the main road directly in front of the pine growth.

Visitors are always welcomed to both places and questions concerning garden problems gladly answered.

We would like to advise our customers that besides the plants listed in this catalog we also grow and sell a great variety of the best annual **bedding plants; fertilizers**, such as **Bone Meal, Dryconore, and Vigoro; Imported Peat Moss; Garden Tools, Garden Furniture and Books.**

In autumn we handle some of the best varieties of hardy bulbs; **Tulips, Narcissus, Lilies** and other miscellaneous small bulbs such as **Crocuses, Grape Hyacinths, Snow-drops, Scillas, Specie Tulips, etc.**

The demand for water plants has been increased every year so last year we added **Water Lilies** and other **water plants** to our collection. We have been very successful supplying our local customers with these kinds of plants, in tubs or pots, in full bloom right through the summer.

Conditions of Sale

IT is to our own interest to see that only good and correctly labeled plants leave the Nursery, but we give no guaranty, expressed or implied, as to description, growth and success of any stock we sell, for it depends on correct planting, proper soil, weather conditions, and the general care of the plants.

We accept all orders upon condition that they shall be void should injury befall stock from frost, fire, hailstorm or other causes over which we have no control.

Any errors made by us will be gladly rectified if notice is given within 10 days after receiving the stock. If any plants are found to be misnamed, we will replace them the next planting season.

We sell 5 plants of the same variety at the rate of 10; 25 plants at the rate of 100.

If cash is sent with order, we omit the usual charge for packing, otherwise packing is charged at actual cost.

A certificate of state inspection for freedom from injurious insects or diseases on our plants will go with every order.
